OVERVIEW

Birthered in 1997, Red Frogs is a support program created to safeguard the next generation. Whether it be at high schools, Schoolies celebrations, university campuses, sporting events or music festivals, today's young people are confronted with an array of important issues that can shape their future in a positive or negative way. From alcohol and drug related experimentation, to problems such as unsafe sex, sexual abuse and assault; issues like these are sadly occurring all too often and are sidelining young lives that were once filled with future potential. Red Frogs Australia offers direct relief and real solutions to these very relevant problems. Our passion and focus is to support schools in preparing students for the various situations they will face in Australian society and culture. We're here to partner with you in equipping your young people to thrive and succeed in all areas of life when you are no longer beside them.

Education Program Overview

Red Frogs Education (RFE) was birthed as part of the Red Frogs Australia support strategy. RFE is strategically conducted to provide interactive education programs to an ever expanding number of students nationally. Our high school education programs educate, equip, and empower students to confidently make positive life choices and be a voice of change within their culture.
